PROFESSIONAL SUMMARY

Master's student in Computer Science with a background in full-stack development and a growing focus on DevOps engineering. Self-driven and actively building hands-on expertise in CI/CD pipelines, containerization, and cloud infrastructure. Eager to apply both software development foundations and DevOps skills to real-world environments and contribute to modern, scalable deployment workflows.

EDUCATION

MSc in Computer Science | University of Tartu, Estonia | 2025 – current

BSc in Information Technologies | BMU, Azerbaijan | 2021 – 2025

PROFESSIONAL EXPERIENCE

IT Support Intern | ARAZ MMC, Baku | Jan 2025 – Aug 2025

- Assisted team members with day-to-day IT issues related to software, hardware, and operating systems
- Provided technical support for Windows and Linux systems, including installation, configuration, and troubleshooting
- Supported user account setup, permissions, and basic network configurations

Front End Instructor/ Mentor | Baku Engineering University, Baku | Aug 2024 – Jan 2025

- Assisted students in reinforcing their knowledge by repeating lessons, practicing skills, and solving technical problems.
- Designed and built templates to provide practical examples, enabling students to achieve their learning objectives.
- Supported learners in developing a deeper understanding of frontend technologies through hands-on guidance and problem-solving techniques.

TECHNICAL SKILLS

- **Skills:** Linux, Git/Github/Gitlab, Docker, Python, Java, Javascript, React, Node js, Express Js, MongoDB, Nginx, AWS, SQL, Gitlab CI/CD, Ansible
- **Languages:** Azerbaijani (Native), English (B2), Turkish.

CERTIFICATIONS:

- **Udemy:** Node.js, Express, MongoDB & More: The Complete Bootcamp 2024
- **FreeCodeCamp:** JavaScript Algorithms and Data Structures
